

The link gallery

A professional Streamlit console for turning EMK artwork links into a clear, searchable, measurable gallery workflow.

From scattered links to a curated collection with visible business priorities.

Curated work deserves a reliable path to discovery.

PROBLEM

Links are hard to manage

Artwork, artist, category, image, and destination data can become fragmented across messages, documents, and social channels.

RISK

Audience attention leaks

Broken or unreviewed destinations interrupt the visitor journey and weaken campaign confidence.

OPPORTUNITY

Make the collection actionable

One shared console connects curation, link health, catalog intelligence, and the next marketing move.

One console for the collection and the decision.

01 / BROWSE

Visual catalog

Artwork cards make the collection easy to scan by title, artist, category, and status.

02 / CURATE

Protected controls

Curators can add, import, export, review, and restore catalog records from the control room.

03 / MEASURE

Business intelligence

Catalog health becomes visible through live coverage, review queue, link checks, and category mix.

04 / ACT

Operational response

Every insight ends with a recommended action for curation, promotion, or link repair.

The decision brief makes the numbers useful.

01 / BUSINESS PROBLEM

What needs attention?

Identify broken links, review backlog, or a discovery gap.

02 / DATA

What is happening?

Use catalog totals, live status, drafts, reviews, and link checks.

03 / INSIGHT

What does it mean?

Translate the evidence into audience, curation, or campaign impact.

04 / BUSINESS ACTION

What happens next?

Repair, review, publish, feature, or plan the next collection move.

A clearer operating picture.

06

Works indexed

Every artwork has a visible place in the collection.

04

Live links

Published destinations are separated from review and draft work.

01

Review queue

Curators can see what needs attention before promotion.

06

Artists / studios

The collection's contributor mix is visible at a glance.

Use the console as a lightweight growth system.

WEEKLY

Curate the queue

Review draft and review items, confirm destinations, and select the strongest works for the next feature.

BEFORE CAMPAIGNS

Check the journey

Run link checks, repair failed destinations, and confirm that every promoted work reaches the intended page.

MONTHLY

Read the mix

Use categories, artists, status, and year span to shape programming, storytelling, and audience outreach.

EMK Links / Art Gallery Console

Open the deployed console to browse the gallery and demonstrate the decision brief.

VISITOR ACCESS

Public gallery

The embed URL opens the gallery directly for visitors and stakeholders.

CURATOR ACCESS

Control room

Authorized users can unlock catalog management and operational tools.

OUTCOME

From insight to action

A shared source of truth for art links, collection health, and marketing decisions.
